RENAULT F1 TRAILERS FOR SALE

**PADDOCK DISTRIBUTION** is glad to have these 2 great Renault F1 trailers for sale.

These 2 trailers have been in the Formula 1 Paddock for a decade.

Through the years, these trailers have worn the colors of Toyota, Lotus and Renault.

Now it's time for them to take their retirement of the Formula 1 Paddock.

We are now putting on the market these 2 trailers than can be either bought together or separately.

We would like to insist on the fact that **only the 2 semi-trailers are for sale**. The central structure is not sold with the trailers.

In the following pages, you will have an insight of the 2 trailers with as many information of each one of them as possible.

The next page is dedicated to the different versions of the trailers through the years.

The trailers have had various colors. They are now stickered in Yellow but the trailers are white if you take all stickers off.

Requested price by trailer is **175.000,00€ exclusive VAT and transport**. The trailers are sold in their actual state.

The trailers will soon be delivered to our workshop in **Belgium** where **visits** will be done for people who are interested.

We remain at your disposal if you need any further information regarding these trailers.

**PADDOCK DISTRIBUTION**
